The salary, remuneration and financial assistance, eg. housing, language assistance, airconditioning assistance, hardship assistance, education assistance, furniture allowance, oversea allowance, offspring Local & oversea education oversea, travel allowance, meal allowance, ..., etc, are too high! it is much higher than the private companies. They are also outdated! Such remerationa and assistance and allowance do not exist in private companies!

There are too many kinds of remuneration and financial assistance for the civil servant and the non government public organisation. They are also much higher than private companies.

All These kind of salary should be reduced at a larger percentage (down 90% or more) and all remuneration and assistance should be cut at once.

These benefit are rather selfish act for the civil servant that squeeze the public people's money and lives for their own benefit.

The civil servant are very lazy and unwilling to work. If they work, their efficiency are very low. A lot of them should be fired at once to cut the loss of the governmnet and public.

The structures of the governemnet should be reduced at a larger rate.

If they remain in organisation, they cause governemnt and public to lost a lot of money.
